# How To Order The SELECT Drop Down Hidro Stay

## 1. Measure Your Door Height

- Using the X axis measure the height of your cupboard door.
- Use the chart below to check the minimum internal height required for installation.
- Note the spring length corresponding to your door height.

## 2. Determine Your Door Weight

- Weigh your cupboard door.
- Locate the door weight along the Y axis of the chart.
- Find the correct number of pistons required.

## 3. Build Your Part Number -

### 1. Length:

Using the X & Y axis select the correct length of your drop down stay:

- Example: If you need 1 x 153mm, the final part number is **CFF153**. If the table shows '2 x' please order 2 no. of the same code.

### 2. Finish:

- **A** for **Anthracite**
