A range of accessories, from handle trays to spice racks, that will complement your drawers perfectly.

Classic Bespoke

What makes Probox drawers so special?

- Smooth, precision cut dovetails
- Hand finished to the highest standard
- Superior timber selection
- Consistency you can rely on every time

Classic Bespoke

Classic Bespoke dovetail drawers can be made in a choice of timbers to any practical size – any width, any depth and any height. Dovetail drawers perfectly complement both modern and traditional styles of kitchen or fitted furniture. They are a distinctive mark of quality and craftsmanship, a sign that a kitchen has been made to the highest standards. Properly made dovetail drawers are inherently strong in their construction.

Probox Classic Bespoke drawers have dovetails on all four corners and the bases are grooved into all four sides as standard. The drawers are supplied fully glued and assembled, prepared for runners, hand finished with two coats of clear lacquer and ready for immediate installation.

Probox have stringent quality control procedures in place to ensure you get precisely the drawers you require and we are happy to accommodate specific details for our customers.

Call us on 01280 825776 for a quotation on Classic Bespoke drawers.

Drawers can be notched and drilled to suit runners as required.

Classic Bespoke Specification

Fully assembled

Delivered ready for immediate installation.

Made-to-measure

Fully bespoke drawers made to your specification, choice of timber and special features (see page 6 for special features).

10mm thick base

Bases are 10mm veneered MDF grooved into front, back and sides.

13-15mm solid timber walls

Sourced from sustainable forests using continuous-stave edge-glued board for stability.

Expertly lacquered

Beautifully finished with a high quality, hard wearing lacquer.

Dovetail joints on all corners

Glued with a premium water resistant PVA adhesive for maximum strength.

Flush top drawers

Stepped option is available (see page 6 for Special Features).

Range of timbers

Beech, Oak, Maple, Walnut and Birch ply. Please ask us about other timbers.

Wood is a natural product and actual colours supplied may vary slightly from those shown in this brochure.

Classic Bespoke

Special features

Classic Bespoke is available with a range of options and features including handle cut-outs, shaped sides, stepped tops, contrasting timbers, unlacquered finish, traditional dovetails and matching inserts or trays.

Stepped tops

Handle cut-outs

Matching inserts

Traditional dovetails

Shaped sides

Contrasting timbers

Lacquered oak drawer with standard handle cut-out and stepped tops.

Lacquered walnut drawer with shaped sides and stepped tops.

Contrasting timbers can be used to emphasise the dovetailing.

Lacquered or Unlacquered

Classic Bespoke is supplied lacquered as standard but can be supplied unlacquered if you wish to apply your own oils or stains.

Unlacquered oak

Lacquered oak

Flush Tops or Stepped Tops

Probox supplies Classic Bespoke drawers with a flush top but stepped tops are available.

Flush Top

Stepped Top

Standard or Traditional English Dovetails

A choice of different dovetails are available to suit the client's needs or match existing furniture.

Standard Dovetails

Traditional Dovetails

Classic Bespoke

Drawer Inserts and Trays

Bespoke inserts and trays for cutlery or utensils are available in a range of common configurations to suit the drawer size specified. Inserts and trays can also be created to any custom specification and lined.

How to request a quote

Request a quote by either:

- Emailing sales@proboxdrawers.co.uk
- Completing the simple to use form at www.proboxdrawers.co.uk
- Calling us to discuss your project on **01280 825776**

Please provide the following details:

- Drawer width or internal carcass width
- Drawer height and depth
- Timber type required
- Runner type and length (See pages 12-13)
- Any special features (e.g. handle cut-outs, shaped sides, unlacquered, traditional dovetails etc.)

Guide to calculating your drawer sizes

Width and height:

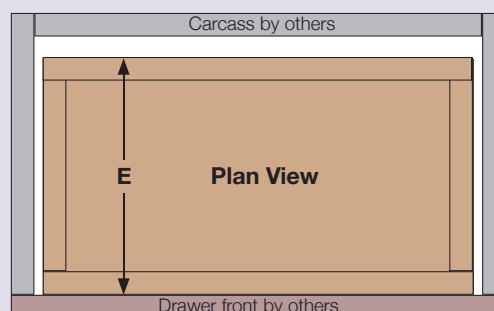

- A:** minimum space above drawer = 10mm
- B:** minimum space below drawer = 15mm
- C:** minimum space between drawers in a stack = 25mm
- D:** spacing between carcass and drawer side = 7 or 8mm

Note: spacers will be required when fitting runners in an In-Frame application.

Depth:

- E:** Drawer depth = runner length **less** 10mm.
If using the drawer as an internal drawer ie without a separate drawer front, then drawer depth = runner length **plus** 3mm.

We will acknowledge your order or enquiry and aim to send you a quote within the hour.

We work with you to achieve your delivery deadlines. Please contact us with your requirements.

Classic Swift

Classic Swift is a range of high quality, oak dovetail drawers to suit standard size carcasses. Available for next day delivery.

Classic Swift

Clients often specify dovetail drawers because they like the warmth associated with wood products, especially in the “heart of the home”. When kitchens are made using standard size carcasses, both lay on and in-frame, **Classic Swift** dovetail drawers elevate any kitchen out of the ordinary and into the extraordinary.

Dovetail drawers are time-consuming to manufacture yourself – outsourcing to Probox allows your skilled craftsmen to concentrate on more critical areas of furniture construction.

If your requirements cannot be fully covered by the Classic Swift range you can match with Classic Bespoke as necessary.

Classic Swift drawers are sized to suit the under-mount runners from Blum, Grass and other runner manufacturers, based on 18mm thick carcasses. For in-frame applications the sizes suit a 36mm wide front frame.

Notched and drilled to suit runners

Stepped tops as standard

See separate price list for full range and pricing options.

10

i See separate price list for full range and pricing options.

Eko

Eko is a dowel jointed drawer with an oak finish, especially suited for use in bedrooms, hotel furniture, home-offices and kitchens.

Eko is manufactured from an oak finish 13mm board. **Eko** is an economical alternative to solid wood, yet still a very strong and attractive drawer suitable for even the most rigorous use.

The sturdy bases are made from matching 8mm thick wipe-clean melamine surface particle board, adding to the overall strength of the drawer. Pre-drilled dowel connections on all four corners make the **Eko** fast and easy to assemble. **Eko** is supplied with Grass Dynamooov 30kg runners as standard but can be supplied without.

Options

« Low front (LF) drawer box option available for use with separate drawer fronts with handle cut outs. Available for 140mm and 196mm drawer heights.

13mm solid oak drawer fronts with handle cut-outs for use on internal drawers ie inside a cupboard. Three heights are available: 140mm high for 90mm drawers, « 175mm high for 140mm LF drawers and 215mm high for 196mm LF drawers. Suitable for 300, 400, 450, 500, 600, 700, 800, 900 and 1000mm carcass widths.

Eko Specification

Ready to assemble

Easy to build and supplied with instructions and fixings pack.

Dowel joints on all corners

For fast and easy assembly.

Choice of drawer runners

In stock and ready for immediate delivery

Standard sizes

Eko is available in standard sizes. Simply mix and match components to suit your carcass size.

8mm thick base

Bases are matching 8mm wipe-clean melamine surface particle board.

13mm walls

Drawer Runners

Probox recommend using high quality soft-close runners from market leaders Grass or Blum. These can be supplied with your drawers ready for immediate installation.

Please specify 18mm pre-drilled oak spacers for use with runners in in-frame applications.

Grass DynaPro full extension runners with soft close

Dynapro runners have excellent three way adjustability. The Dynapro guide rails move without annoying noise or resistance, which makes using the guide system very practical for non-kitchen furniture as well.

The system can handle heavy loads and the abrasion-resistant plastic rollers ensure constantly smooth, even running.

Specification

- Full extension drawer, synchronised 40 and 60 kg load capacity
- Integrated Soft-close system.
- Stepless self-locking of the drawer when placed on the slide.
- Integrated height adjustment without tools +3.5 mm.
- Adjustment locking clips for tool-free side adjustment 1.5 mm and tilt angle adjustment +4.0 mm
